

Health Forms

All incoming students:

An annual physical is required of all incoming students if this is the first time they are enrolled in a school.

Your doctor should complete the physical looking for hearing, vision, and speech disorders in addition to general health. Your doctor should provide a physical form and you must return it to the school before the first day of classes. If there are any special medical situations that are not included on the standard form, please add a brief explanatory note to the form.

Returning Students:

For returning students a yearly physical is not required but additional immunizations may be needed.

If the results of a physical reveal the possibility of special learning needs, the school will conduct further assessment in accordance with Ohio handicapped education laws.

Immunizations

Students are required to have written proof of immunizations on file **before** the beginning of school. The immunization chart is part of the *School Entrance Medical Record*, which all new students receive. **If this medical form is not received within fourteen (14) days of the start of school, your child will be excluded from school pending confirmation that required immunizations have been given. This is mandated by law and will be strictly enforced.**

7th Grade Required Immunizations:

Students entering 7th grade will need to provide proof of having received a booster dose of Td or Tdap *and* one dose of Meningococcal before your student can return to school in August. The dose of Tdap is intended to be administered as a booster dose for students who have completed the required doses of the initial series of DTap/DT/Td.

According to Section 3313.671 of the Ohio Revised Code, if your child does not have the updated immunization form on file at Lakeshore Intergenerational School by August 30th, 2016 he/she will be prohibited from attending school.

Students may be exempted from immunizations for personal, religious, and/or medical reasons only with a written statement from the parent and/or physician. An exemption form must be first presented and subsequently approved by the Principal and then filled in the school office before the first day of school. (*ORC 3313.671*)
